

CLAIMS

We claim:

1. A disposable undergarment for a user with a middle buttocks area, two legs, a midriff and a crotch area, comprising:

a belt portion with a front and a back, that is wrapped around the midriff of the user and is releasably secured to hold the disposable undergarment onto the user; and

a generally rectangular flap portion with a front end and a back end, with the back end permanently secured to the back of the belt portion, said generally rectangular flap portion covering the middle buttocks area of the user and is wrapped between the two legs of the user, with the front end of the generally rectangular flap portion being pulled up from between the two legs of the user and over the crotch area of the user to the front of the belt portion to be releasably secured, said front end of the generally rectangular flap portion can also be folded back to the back of the belt portion and can be releasably secured, while the user sits and uses a toilet.

2. The disposable undergarment according to claim 1, wherein the belt portion is releasably secured around the midriff of the user, with a first hook and loop fastener.

3. The disposable undergarment according to claim 1, wherein the front end of the generally rectangular flap portion is releasably secured with a second hook and loop fastener to the front of the belt portion.

4. The disposable undergarment according to claim 1, wherein the front end of the generally rectangular flap portion is folded back to the back of the belt portion, being releasably secured with a third hook and loop fastener.

5. The disposable undergarment according to claim 1, wherein elastic supports are provided between the back of the belt portion and the back end of the generally rectangular flap portion.
